The extractor works in the following way: He then added the following line to his hosts file: 127.0.0.1 samsung.com This hosts file entry made it impossible for any browser to access the site. Q: How to add new branch and commits to the other branch I have created new branch "new-branch-1" on branch "master" and checked it out. I made some changes and committed to new-branch-1. Now, I want to merge those changes to the branch
