

What to do with a password-protected WinRAR archive? You hack it - naturally. And how do you crack it? First, download RAR Password Recovery v1.1 RC17... Do you think you will crack the archive after that? You will open it - of course! It won't stop you from hacking it, of course. You will read it - of course! And, of course, you will not unpack it - naturally. But what will you do with it? You will open it, of course. And you will open it, of course. But what will you do with it? You will unpack it, of course. But what will you do with it? You will unpack it, of course.
