Generate a key with Autocad > Excel > Sheet > Make Key. You will have a keygen.xml file. Use it as a template for the keygen.template.xml file. Run this file as a batch from cmd.bat. Autocad will open and you will be able to save a new key. Save the key. Export it and the documents will be signed. The key is the tool to validate the signature. You have the key in a pair with the certificate.
