Tarnished Blade - An action RPG released in 2015, it lets you get the feel of fast-paced sword battles. When you enter the Lands Between, you will receive a message from a mysterious man who offers you guidance. Tarnished Blade Storyline Welcome to the Lands Between, a world filled with dungeons, myth, and magic. The races of the Lands Between are divided into four nations: the undead, the savage beasts, the rich, and the flying devils. The Duneman region occupies the center of the Lands Between. The location of the 3rd Artefaction has been lost in time. Ancient ruins dedicated to special arts, and the powerful witches who control them, are scattered across the region. You were on a journey to find the 3rd Artefaction, but a mysterious man named the Master appears before you. He calls himself a Duneman, but also a former one of the Artefactors. He says that to catch up with the Master, you first need to catch the Duneman. In the Duneman region, you can discover various ruins, magical herbs, and various items by making a living as a Duneman. Each Duneman uses special skills and weapons. In the forest, you can find a great variety of dangerous animals, craft weapons, and safely use them. The world of the Lands Between is ruled by the element of the west. By gaining the gift of the west, you can learn about its existence. In the north, the Low Lands are dotted with ruined castles, where powerful people ruled the region of the Blood Witch. In the east, near the location of the 8th Artefaction, are Imber and the Mouth of the South. They are less than twelve hours away from the Duneman, and are a symbol of the distant past. The Jews, the only first-level adventurers, are in the lands of the west, but they have not yet appeared. Artefacts - Powerful weapons that amplify the magic of users. Mastercraft - A powerful high-level weapon. Duneman - A powerful first-level weapon. The origin of the Duneman is revealed at the Duneman Ruins, where there are seven Artefactors, the seven known artes of the Lands Between. In the Masters' Castle, there are gods of the east, who deal with the magic in the east

The purpose of this investigation was to compare the physical activity measurement of a 1500-m swim, a 2000-m swim, a half-marathon, and a marathon. Twenty-one men were measured with a microcomputer activity monitor during a 2000-m swim, a 2000-m swim, a half-marathon, and a marathon on 3 separate occasions. In addition, time-distance and heart rate of exercise were determined simultaneously. The activity monitor was worn on the subjects' lower back, and was connected to a data port that transferred data to a microcomputer. A 500-m swim was included at the beginning and end of each test, in order to ensure full recovery. The data for swimming and running were compared to predicted values that were based on the energy expenditure for swimming, running, and the half-marathon. The activity monitor estimates of energy expenditure during swimming and running were $7.6 \pm 0.8 \text{ J} \times \text{kg}^{-1} \times \text{min}^{-1}$ and $31 \pm 3 \text{ J} \times$

What's new in Elden Ring:

Unite your strength with friends in a world... Twelve years ago, a strange signal was detected in the Lands Between, and an accident occurred at a research lab. The lab was shut down, and those involved were all presumed to be... died.

Seven years later, the signal again appears. Four members of a mysterious guild, named the Vexen Knights, hold the key to the signal in their possession, and the Vexen Knights set off to the Lands Between in pursuit. To the surprise of these four people, the signal disappears into thin air. A mist begins to flow, and the Lands Between itself... is swallowed up. The four of them are now suffering from amnesia, and have no recollection of their past.

The four are named the Seeker, the Thief, the King, and the Mouse, and reside in a small town called Tarnel in the Lands Between. No matter what journey these four people undertake, they are drawn there where the curious lands and people await. The initial goal of their journey is to recover their memories, and to gather knowledge on this unfamiliar world.

However, in the Lands Between, a wide world unexplored and large scale, malicious humanoids and their guilds are common, and dangers are lurking around the corner. The fate of these four people awaits.

Travel deep into the Lands Between, and experience a high sense of drama and action! The Lost Suburbia

Twelve years ago, the Humans of the world remained confined to the Hearthlands. Ever since then, the "Ancient Scroll" has completely sealed off the magical powers of mankind. The Familia, a secret organization that has deep ties to mankind, remained at their base, stirring things up in secrecy. The human civilization had fallen into complete darkness, and the

transition to the "New Way" was unthinkable.
