

FIFA 22 introduces HyperMotion Technology. With FIFA 22, you can find the movements of players that have been captured on matchday. FIFA allows you to experience it all in unprecedented detail, including directing players, creating realistic team formations and practicing your set pieces. By combining all this motion capture data with gameplay AI, the outcome of any situation feels completely unique. FIFA 22 introduces movement tracking. For players, the most exciting improvements in FIFA 22 are the new abilities for both attacking and defending players. The player animations in FIFA 22 are the most detailed ever to be featured in the series, and the abilities can be mastered with help from in-game tutorials. FIFA 22 introduces gameplay improvements for player abilities. Attacking players have a new tool for attacking the midfield – the

dribble. Players now have the ability to perform short passes while changing direction, which allows them to move with pace in tight spaces. Attacking players can use the new high press to force the opponent back, subsequently creating space for an attacker to run into. FIFA 22 introduces the new FIFA Ultimate Team Decks. FIFA Ultimate Team Decks - In Ultimate Team, a new set of traditional and FIFA Ultimate Team created Teams has been added, including Egyptian Pharaohs, Teams from the 1998 World Cup, English Teams and the most popular national Teams of the world. Now, you can play with the Champions and Legends of your favorite football clubs. FIFA 22 introduces players' newest faces. FIFA 22 introduces its latest license and highest creative team of the year, Diego Maradona. Maradona joins a host of football greats including David Beckham, Ronaldinho, Cristiano Ronaldo, Neymar, Luka Modric, Lionel Messi, Steven Gerrard and Cristiano Ronaldo to join the FIFA 22 franchise.---

Play the World's Greatest Sports Game! Change the course of history Challenge™ for the World Cup Play with Your Friends Show your personality Brand new gameplay features Every player is now more detailed and expressive, meaning there's much more to discover and analyse.

Whether you're playing a defender or a striker, each position now has a distinctive skill set so you can perfectly manage every aspect of your play. Off the ball, players now run with intelligent locomotion, meaning you can control your runs and movement with more precision and fluidity. Players will now run to the ball and play short, quick passes to teammates, in addition to executing longer, more precise, high-intensity passes with a higher impact. Even in goal, players will now perform with top-class anticipation, positioning and reflexes, as well as use their core and shooting muscles. Disrupting plays with more control is now a major new challenge. When players get onto the ball they will use clever touches to create unusual scenarios, then use their awareness to play precise balls, runs and passes. They will also be much harder to dispossess or pressure, as players will know when to gain momentum and keep it. FIFA

FIFA 22 delivers enhanced ball physics, enabling realistic bouncier balls and a softer touch. Players can slide and trap the ball perfectly in addition to create larger scuffs and scuffs while dribbling past opponents. FIFA 21 introduced the new 2-on-2 tournaments, which allow you to play authentic versions of real-life sporting games as 2-on-2 teams. FIFA 22 now brings these onto the pitch, and replaces the traditional 3-on-3 tournament format. The online infrastructure has also been enhanced, with smarter algorithms for ranking and finding players that are best for you. In the new video pre-game experience, which also makes its return after a complete re-vamp, you can now watch live and recorded matches, play with and against friends, view content highlights and manage your teams. Fan-created content will also be reflected in the career where you can upload your own videos and highlights for the fans to view. What's new in Fifa 22:

- **All-New, Authentic Player Instincts** - FUT 22 brings back a key component of gameplay that fans loved before in FIFA 18 - unpredictability. Player Instincts are a new and unique feature that help you predict the choice of moves a player makes when you attack. Just like a real football match, players making high-risk, low-reward plays who normally make more predictable decisions when attacking will react differently. You'll need to be aware of what these players do. For example, a midfielder who usually makes safe passes will make a higher percentage of moves that risk a long pass that might see the receiver lose the ball.
- **Playmaker 2.0** - Create the play! Guide your team on the pitch through tactics, positioning, movement, set pieces, and through your formation. Despite the best efforts of your coaching staff, sometimes the ball just won't go in. Playmaker 2.0 does away with the one-2 punch of the original system and gives you a range of tools to help set up your team and get the most out of your players at every level of gameplay: from beginners all the way up to world champions. Tweak each of the six "tactics" based on the situation on the pitch to gain the maximum benefit for your team.
- **Goalkeeper Radar** - Train the vision of your goalkeepers in FIFA 22, whether they're learning the defensive shape of the opposition or their box to box positioning. Keepers use radar in real life to predict touches, interceptions and passes based on their position. Scouts learn naturally, and experienced coaches can fully control the training. After a match, review and evaluate the key aspects of a match with the new visual analysis options.
- **Goalkeeper Crouch** - While training and in matches, you can help your goalie with the analysis of key play events by giving them feedback.
- **FIFA Ultimate Team: Bundesliga Edition** - Play as Germany's Bundesliga clubs in FIFA Ultimate Team. 12 clubs entered as individuals, to create both unique visual appearances and play styles. Improvements to gameplay

offer a level of intensity and skill unseen in previous editions.

- **FIFA Ultimate Team: World Football: Real Leagues, Routes, and Unlocks** - Further immerse you in the authenticity of the game by bringing real world popular football leagues into FIFA Ultimate Team. **FIFA ULTIMATE**
