With over 1 million players worldwide, Monster Kingdom is the best-selling fantasy strategy online games series. Monster World, the first game in the series, was released in March of 2001 and is one of the first successful browser MMORPGs. With Monster World a complete single player campaign and the beloved monsters of Sylvania in multiplayer mode, the new third game, Monster Kingdom, is not only a proper sequel but also a refreshing take on the genre. Gameplay: Based on the well-established Monster World series, Monster Kingdom combines elements of the genre of traditional Fantasy MMORPGs with classic RPG elements like character advancement. You can either explore the fantasy world and discover dungeons, battle monsters and help them recover their souls, or lead your country and work towards the top of the rankings. Monster Kingdom takes the genre to the next level with the new features of International Cooperation, Necromance, and more. Cooperative and international gameplay is especially exciting in this fantasy MMORPG, since it enables you to play with your friends and enemies at the same time. The International Cooperation system allows you to instantly gain experience and items by cooperating with people who are playing at your current level. While it can be risky at first to play for experience and items with people of unknown strength, cooperate with a friend first and slowly gain trust. Along the way, you'll learn to use different special items like Magicite, Monster Hunter, Necromancy to become stronger. As you level up, your hero can move faster, deal more damage, learn new skills and use items. Apart from its illustrious character development features and exciting cooperative gameplay, Monster Kingdom also brings a game-changing feature: Necromance. Necromancy lets you steal the souls of your enemies. As more enemy souls are stolen, the country's strength increases dramatically. The further away the enemy of your enemies is, the stronger he becomes. Intrigued by this new feature? Then you should join us in our quest for the throne of Arдания! There have been quite a few rumors that mentioned that Diplo will be the fourth DJ Set On Air host for the Grammy Awards. This is in addition to Katy Perry hosting the show in 2018. Diplo also shared a photo on his Instagram and Twitter account alluding to his role on the show. The tweet read: "Let me give you all the details??? if I'm hosting the Grammy's?!"
