Top Secret is an immersive, action-packed, escape room for up to 5 players. But be warned - it's not for everyone. You are a sleeper, brainwashed and kept in stasis for a year. Your mission: to escape. Your weapon: your mind. Your craft: the possibilities. Your enemy: your destiny. Because one thing is for sure: even if it takes you the rest of your life, you will find a way to escape. Quick and Easy Escape Room Game Nice story for AVP, but not an Escape Room Nice story for AVP, but not an Escape Room. The level is set in your apartment, you had some bad nights. You have to make it to the end. Cool logic of the level and very little puzzle, but it's not really a puzzle. After a few seconds you'll just figure it out. The story is very good and not too over the top. Just make it to the end! Cool story for an escape room game Cool story for an escape room game, great ambiance, actual lock picks and the actual escape room. There's some actual logic in the set up but it's not that difficult to figure out. Very immersive and incredibly fun. Worth playing and worth the \$5 to just get your five minutes of escape room entertainment. Such an immersive experience This was my first time playing an escape room game and I had such a great time. The atmosphere is truly realistic, the logic in the room is smooth and there are no any questionable puzzles or actions to make you feel like you're cheating. There are locks to pick, locks to open and it just feels so real. There are no instructions (no need for them) because everything is logical and there are more than enough hints to make you think as you puzzle your way to the end. If you're looking for an immersive experience, that gives you five minutes of your time to escape, this is the place to be. Do not under estimate this game This game would have been an 8 star had it not be for a bad design choice. The game has a save/save feature. When you want to save your progress you can click on the save button under the clock in the small screen (yellow box). You can then save it and load it. This is problematic because the game can take you a long time to complete. We were almost done when we started to c9d1549cdd

Road Gangs Simulator 2025 When Roger Parks first started the Road Gangs Simulator series of games back in the year 1999, it was a simple time management game with a bit of car customization thrown in. We all were pretty excited then as that was going to be a title most of us never thought we would get to play at the time. Nine years later as of 2017, the game is still running strong and still have over a million people playing it every month! The Road Gangs Simulator series wasn't going to make it to the next generation since it is still running in the Sony Console at this point but then the dream was finally realized once Bizarre Creations had bought back the rights from Insomniac Games. This winter was it, what we all have been waiting for! The new version Road Gangs Simulator 2025 will be hitting the PS4 store soon and we are so excited to get our hands on it! Road Gangs Simulator 2025 is the first game that was really created from the ground up to be a first-person game in the series. You get a chance to drive in over 30 cars out of over 5000 that the game has in its collection! This means that you can choose how crazy you want to go! There are different dune buggies, trucks, intercity and even a crane. Currently only one new car is being added at a time, but there are more to come. We hope you all are ready! Each track will be easy at first, and there will be four tracks that are unlocked for you at the start. You will unlock more tracks by repeating as you are best able. This means in the base edition, there will be a total of 12 tracks that you can drive in the PS4 version. Drive safe! For the base edition of the game you will get an assortment of cars to choose
