Sometimes I can't help but feel like a weirdo. I don't have a partner, but I live in a flat of four girls. And it's only been since I moved in with them three months ago. Like oh, I'm just on this weird journey of dating and trying to find a partner. No one knows. It's all just a secret in my head. I haven't told anyone about it. I came out to my best friend a while ago, and she's good for me, but I don't know how she's going to react. All the girls here are so cute, and they all get on really well. But none of them seem to notice I exist. I just don't know what to do. I sent this message in to a contest at the game section of my favorite site, hoping to win a prize. I've seen contests for there before with astronomical prizes, so I thought it was worth a shot. So if you want to find out the answer to the question in the title, I've provided a link to the contest at the end of this message.
