On Pizza Arena, you're a hungry pizza chef. You need to work your way up to become the all-time best pizza chef, and show the world that you're the best pizza chef! Pizza Arena combines fighting with cooking elements, and combined with the right strategy your victory is certain. But beware of your friends, because this game is predestinated for trolling. Whether letting the others burn their pizza or stealing their ingredients for your own pizzas, be careful who you are messing with. Or are your friendships that harmonic, that you are fighting the ingredient monsters as a team? Let's figure it out together in the Pizza Arena. Currently Pizza Arena officially only provides a local multiplayer mode, but it can also be played together online with Steam's "Remote Play Together". Pizza Arena developed from an ambitious student project of the Master "Game Engineering and Simulation". Special thanks to the University of Applied Sciences Technikum Wien. Feel free to contact us at pizzagladiators@gmail.com. The incredibly fun and visually stunning point-and-click adventure game "Dear Esther" is back! The wonderful world of "Dear Esther" is a world very different from ours. A beautiful and impressive world which existed before the Industrial Revolution. A lonely, isolated world, where humanity has perished. In the cold wastelands of this terrifying world the remnants of a civilization are found. This desolate world still has one more surprise in store for you. But what on earth is there in a wasteland, where people no longer exist? ----- I make these videos as nothingness so that a meaning to life can be found. For the greater part of my life I was seriously mentally ill. In the last year I have been recovering from a time when I had severe depression and panic attacks. Now I am doing my best to stay optimistic and happy, because it takes a lot of work. I created this channel as a direct result of my anxiety and depression which I experienced for the last 3 years. As I try to improve my outlook, I make this channel to use as an outlet to show everything in a positive light and keep me positive and happy. Please let me know what you think and if you could give more positive feedback I would greatly appreciate it. But more importantly, thank you for watching my video. I try to upload this video every week, so keep an eye out for more updates. I hope you enjoy my channel, please subscribe and come

Features Key:
