Loralei has always felt like an ordinary girl. A normal high school student. Until one day, she lost her mother and became an orphan. Now it's only now, with a newfound power to read people's souls, that she's starting to realize what a hell it's been, living in her big, bad foster home. The past few years have done nothing but hollow the kind-hearted girl, and all that she's ever wanted is her mom. But that's still in the distant future when a tragedy unfurls, affecting everyone in their life - even if they don't realize it. For every tragedy that happens to an individual, or for the life of a village, the Spirits of the World's Lore are there to restore peace. It's said that if a life is tainted by tragedy, then the Spirits of the World's Lore can just barely restore it. But what if they succeeded in restoring the wrong life? Lorelei soon finds that she is no longer the same Lorelei, and the only one who can help her is a girl who's in her own tragic time. - Build your deck from the cards of more than 100 blackjack games - Battle against AI on 3 different computer opponents - There's a free version of the game - Check out the top ten winners' threads in the Atari Community - Watch gameplay videos - Rate players - Comment cards - Watch a high score table - See the rankings with grades - Email 5-star players - See winners and players in the arcade cafe at VRVio The Atari Flashback Classics Library has been gathering like-minded gamers from all over the world since 2008. Founded by Richard Ihnat, AFCC started off as an online community that I could share my addiction with others who had the same love for games and technology as I did. To this day, we remain dedicated to the goal of bringing the joy of retro gaming to all users world-wide. With our growing community, we have begun to forge a stronger partnership network of importers, publishers, and curators. Together we hope to bring both old and new retro titles to modern audiences while maintaining a dedicated following for all things Atari. Join us today by visiting one of our gathering places: our forums, our discord, our twitch, or our video channel. We look forward to getting to know you! Fully Modded Add-On Collection for Automobilista The game automobilista or automobilarista as it's referred to in many parts of the world is a freeware release that's been around for a good number of years now and is still very popular in many places due to it's fast paced action, racing, and off road adventures as you try to traverse the vast landscape of the many lands that it has to offer. But it's pretty limited in what it has to offer, now with Moto Racer 4 coming out and automobilista being fully modded to the point where it has it's own unique theme, there's more, so much more, than there was before when it just sort of existed in it's original form, so to say. Automobilista Theme - Blackjack 2 Club Edition Automobilista has always been a great game, with it's numerous challenges, back and forth racing, and off road action, this fun, fast paced game has taken on a whole new life when it's had it's theme radically altered by Blackjack 2 Club Edition, or 'B2CE' as it's referred to in many parts of the world. Mountain Mind - Headbanger's VR This is Headbanger's VR. This is Mountain Mind. Crystine is our Hostess/Salesperson. Stephen and Paul are the Magic Managers. It has been up there for a while, and we have not had a chance to upload it yet! It's a re-vamped VR that will be coming out soon. Hope you like it. Thanks. If you have any complaints or suggestions shoot them over to the "Do Not Go There" @ WhyNotGaming. If you want to see any of the other Visions following this you can go to the 'Visions Page' or go to [www.facebook.com/visionsvr](http://www.facebook.com/visionsvr). Hope you guys enjoy. Crystine AT Headbanger's VR. Cool site But Where is the raygun? Nice Visions. It's funny when you try to kill those old people in the Visions. A bit Creepy if you ask me. I'd love to see who could actually kill a 72 year old woman. Let's just say that it really isn't pretty. I know there is a basement under the control room that has an elevator. I have always wondered about that. They can create all kinds of imaginings, but never seem to be able to even dream of a Bank Vault. They can build old mansions or even ski slopes, but never a Bank Vault? I'd like to have a word with them. The humble swear jar has been here before, but I'm not sure of the correct term for it (my favourite term is 'tail goatee with a small beard'). I remember my mum using one to stop me doing naughty things when I was a child, which is a shame really. Nowadays, the tail goatee with a small beard (it sounds terrible when written down) is more a part of office culture than a parenting tool, no matter how many ludicrous justifications you can come up with about why your colleague or employee should start a parenting plan with you. A few years ago, a friend told me that she liked to start her budget month with a swear jar. It's a simple way of marking off each new spending, and then spent money gets replaced with something new. If you really want to take things seriously, you can take on a strict budget month (unless you're a big budget cutter but who is that?) or, maybe, one where you
