Features Key:

fast read and write for small datasets and fast indexing/finding for large datasets
high throughput compression and very fast decompression
support for both zlib and liblzma compression. Please do not mix both in the same application
efficient yet lossless compression algorithms
exceptionally fast decompression engines with least overhead and worst-case overhead of under 200 bytes per byte in most cases
aborts as part of its operations to report errors gracefully
built-in Bzip2, LZMA, PKWARE PPMd, Snappy, LZ4 and LZF compression/decompression engines
built-in SHA256, GPG, SHA512 and TrueCrypt AES/ECB/CTR/CFB/OFB/MAC algorithms
built-in SHA384, SHA224, SHA256 and RIPEMD-128 algorithm for small files only
quick access binary format (FBE) for large files or inputs with solid data for hashes

Tell me more about :

- Native compression engines: the default Alureon(LZMA) and TrueCrypt(LZF) engines are built in the core application and do not require any external dependencies
- libraries for compression: Alureon ZLib, Alureon PKWare LZMADecom and LZ4 libraries are built in the core application for several compressing schemes. The open source versions of these libraries are recommended but Alureon provides another static linkable library with bundled versions of these libraries

Play as Choeur, a mysterious melody-loving witch living in the occult world of New France. Brought to life by the enigmatic artist Syn, Contrast is the story of Choeur's awakening and her journey to find her estranged sister. As Choeur, find all the hidden keys of her world to unlock each life-altering melody. Choeur's journey to discover her past will also lead her to enter into the dark world of the Grimm brothers, and into the high-stakes world of a Russian religious sect. CONTRA - A brand new full soundtrack by conceptual artist Louis Greenberg, is included in the digital version of Contrast - Original Soundtrack to Contrast. The album features elements of film score, classic 70's rock, and a touch of early electronic music. Contrast is a musical exploration of the dark, desolate places a person may find themselves when lost in a waking dream. Within Choeur's waking nightmare is contrast. An eerie blend of abstract surrealism and a dark electronic pulse. Synopsis: A music-loving witch, Choeur, wanders the dark world of the occult, hunting down clues to the tragic events of her past. Through her journey, she will encounter many different characters and the challenges that befall on each of them. Choeur is accompanied throughout by the enigmatic artist Syn, whose visions echo in the background as they begin their journey together. Designer: Lev Meni: Music, Sound Design, Game Design, Programming, Writer Louis Greenberg: Music Dylan Brown: Concept Art, Writing Lev Meni: Audio Producer Louis Greenberg: Mixing Josh Childress: Graphic Design Lev Meni: Game Design Jon-Erik Hexum: 3D Modeling Todd Murray: Animation David Oliphant: Lead Programmer Stuart Simpson: Character Design Aidan Lawrence: Programming As the title suggests, Unravel is a game about unravelling your life as well as being a game about how time is represented. Unravelling is just one of the many things it does, the game world is also a semi-open and non-linear one, allowing for multiple ways of arriving at your goal (and making it an interesting mechanic), and the player is tasked with being able to (intuitively) control the path of the story as they go.
