ENGLISH: JA: Q: Can't install a Magento 1.3 extension I've successfully installed extensions on Magento 1.4 and Magento 1.5. But I can't get it to work for Magento 1.3. I can install extensions just fine but the ones that I installed in 1.4 and 1.5 aren't available in 1.3. I'm looking at the file permission for the extension directory and it looks like the permissions are ok. Anyone know what might be going on? Thanks. A: I've had problems with dependencies sometimes. Try to clear out the cache for the module from the bin directory. If that doesn't work, you may be forced to clear the global caches. Try something like this: `rm -R var/cache/* clean var/cache/* var/session/* var/log/* var/page_cache/* var/tmp/* var/cookie/* var/md5 hash/* rm -R var/di/*` To do this you'll need to move into the Magento root directory. `rm -rf var/cache var/session var/log var/page_cache var/tmp var/di mv app/etc/local.xml app/etc/config.xml` After the above changes are made, you should try again. Can you try replacing your code with this? `$ret = $this->getDesign(); $prototype = new $this->_type($prototype, $config); $prototype->load($this->getCode());` That will look for the extension in the XML file. It's not

Below are some honest reviews on the game provided by other users. "Ok, but this game is too short and too easy." Like I said, it's short and easy. BUT, it doesn't give you any reason to continue after the tutorial. There's no reason to do any quests. There's no chance to get any power ups. There's no sense of reward from completing the quests. The difficulty is just that, easy to the point of frustration. But, I want to give this game a shot anyway because of the price. It's a good game so it deserves a shot. But, I want to be compensated for downloading it. "This game is good but too simple." You can obtain all of the weapons and abilities from the tutorial right away. This is something no other game can say. The level cap is only 50. You're rewarded for dying, which allows the game to be too easy. The only reason I can come up with to avoid this is if you're not ready for action RPGs. If you're a fan of FPS games like Call of Duty, then you'll enjoy this game. "This game is good but too simple." From what I've seen of this game it's very reminiscent of the It's either you or me. The characters are very generic. The voice acting is decent, but the characters are all speaking in the same accent. If you're a fan of Action RPGs and you're looking for a game with a hardcore combat system then you're in the right place. THE NEW FANTASY ACTION RPG.
