I got an ASV ECM Titanium 1.61 and I can read all DTCs, but I can't remove, go to fix and write any information (health, errors, etc) without receiving an error message that it can't access the ECM. I would really appreciate it if someone could help me! Many Thanks in Advance!!! A:Can't install ecm titanium Brute force the ECM. I would really appreciate it if someone could help me! Many Thanks in Advance!!! Thanks. I was looking at our local dealership for a PCM because we have a 2012 G11 and the dealer was going to replace with an OEM that was less costly. They said no. The dealer recommended the ECM since the last OEM PCM failed. So I tried on ours but it didn't work for the same reason. The ECM is still not working! I also have the same problem with the blank out with no DTCs and all other functions working except the ecm titanium. Also, when I had the ASV PCM mounted, I also had a dash light on even though the ECM was functioning. Hopefully someone out there will have advice on this problem. I haven't put an ECM in so it's a new experience for me. I have the same problem, I think.
