I have written this:

```
UITableViewController *tableViewController = [[UITableViewController alloc] initWithStyle:UITableViewStylePlain];
```

However, it gives me this error: Cannot cast UIViewController to UITableViewController I understand that both classes inherit from UIViewController, however, I need to be able to cast as I am in a UITableViewController which contains the same logic. A: I needed to wrap my UITableViewController in a UINavigationController . 2027 in decreasing order. 2027, -11, -45 Put 1605, -3, 5 in decreasing order. 1605, 5, -3 Sort -2, -4, -9, -1 in descending order. -1, -2, -4, -9 Put -0.2, -1247, 2, -25 in descending order. 2, -0.2, -25, -1247 Put -5, 3, 6, 23 in descending order. 23, 6, 3, -5 Sort -2, -1, -3/2, -131 in ascending order. -131, -2, -3/2, -1 Put -2, * 2 + 5 * q + 6 . Download solucionario ingenieria termodinamica david burghardt pdf freeMonday, November 21, 2015 It's an ongoing battle against the faceless, nameless horrors who prey on helpless people - and the TSA workforce is no exception. After New York Times reporter Peter Finn published a detailed expose on TSA worker abuse (start here and here), the agency appears to have started pulling people out of airports and threatening them with investigations and public shaming. The problem is that the intimidation tactics work. Finn also notes: "My sources say that scores of people have been investigated and are still working at airports, receiving letters at home or even back at work. Some of them are accused of being spies, sent to penetrate more sensitive parts of the airport. Others have been denied overtime." "I think I'm starting to understand why they join the military. This is scary stuff." 1 comment: It's interesting how all the stories about abuse at the hands of our TSA workers serve to make people fearful of flying, making it harder for business people to travel. Just imagine the train of thinking from many. "Gee, I hate flying. But I'm trapped because of the TSA. I'd rather just use the train or even better, drive. Then I wouldn't be victim of tyranny in the name of security. Or if I'm really brave I'll sail off to the land of the free. But I'm not going to fly unless I have to for the sake of my children. Better to drive with them than fly!"module.exports = sorter var sort = require('./sort.js') sorter(function (a, b) { if (!a.label || b.label || !a.resolved &&!b.resolved) return a.locale - b.locale if (!a.resolved &&!b.resolved) return a.label - b.label if (!a.label && b.label) return 1 if (!a.label &&!b.label) return 0 if (a.label Immunogenic properties of synthetic peptides corresponding to the Trypanosoma cruzi and Trypanosoma cruzi-like antigens identified in sera of chronically infected patients.
