The beautifully rural Mon Line running through the heart of Pennsylvania springs to life in this new route for Train Simulator, complete with mile-long coal trains and distinctive street running. The original Monongahela Railroad was a joint venture between the Pennsylvania Railroad (PRR) and the Pittsburgh and Lake Erie Railroad (P&LE). Through the early 1900s, the two companies acquired many lines in the area and by 1930, the Monongahela ('Mon Line') was operating more than 170 miles of track serving numerous coal mines. At the heart of Pennsylvania's coal country, the rural Mon Line is today owned by Norfolk Southern with CSX Transportation also having trackage rights. Coal mines dominate the route, with important facilities at Bailey Mine and Emerald Mine connecting with a staging yard at West Brownsville from where coal trains continue on their way to power stations or to ports for export. More than 20 million tons of coal is annually transported along the line, much of it to Loveridge Secondary where it is transhipped from rail to river barges. The route is primarily made up of four branch lines - Manor, Ten Mile Run, West Brownsville and Loveridge, and includes the unusual spectacle of full size coal trains sharing the public highway with cars along Main Street in West Brownsville. Included with the 50 mile section of the Mon Line from Bailey Mine to West Brownsville for Train Simulator is a Norfolk Southern-liveried ES44AC diesel locomotive, part of GE's Evolution Series. Its mammoth 4,400 horsepower and 75mph top speed make it an ideal locomotive to head the long coal trains seen on the Mon Line. Engineers can also create their own coal loads at Bailey Mine and Emerald Mine with working coal loading facilities, and experience the rail served businesses along the east bank of the Monongahela River, including a metal recycling yard north of Brownsville, river barge repair and construction yard to the south, and a rail/river coal transshipment facility at Alicia.Scenarios Seven scenarios for the route: Training: ES44AC Expert Controls Training: ES44AC Simple Controls Running the Manor Emerald Coal Run Power Supply Monumental (Part I and II) More scenarios are available on Steam Workshop online and in-game. Train Simulator's Steam Workshop scenarios are free and easy to download, adding many more hours of exciting gameplay. With scenarios being added daily, why don' c9d1549cdd

AG), Micro-M, (Zabithawen AG), and R&G-Iris II plant growth hormones \[(IAA, gibberellins, cytokinins and mixed). There was increased rate of growth and yield due to application of these plant growth hormones except Mixed. Non of the plant nutrition system containing hormones were very effective in controlling the pest of *A. absinthium* \[[@CR67]\]. Thus many plant growth regulator are ineffective in controlling this pest. Germylene is a potent inducer of dormancy. The plant growth regulators induce dormancy of root crown and shoot tips \[[@CR68]\]. These causes lack of structure and make up a complete plant, thus have a positive effect on health and can be applied in the form of root drenches. For population and control of *A. absinthium*, application of fenoxycarb residue and oxadiazine herbicide or diquat concentrate to aerial parts are excellent choices \[[@CR47]\]. Kole et al. \[[@CR69]\] registered that fenoxycarb residue significantly reduces *A. absinthium* crown and sprigs, damage diameter, fruiting quantity and germination of large size seed up to the level of control group, however, it is ineffective for small size seeds and immature seeds. The herbicide or diquat chloride carbamate as substrates as well as mixed in seed, this solution is of good control of *A. absinthium* infestation \[[@CR70]\]. For population control of *A. absinthium* with diquat and chlorimuron ethyl herbicide applications in field studies, effective diquat was in correlation with control of the *A. absinthium* \[[@CR47], [@CR71]\]. Pesticide applications on the immature *A. absinthium* in the early stages of plant development can be effective. Application of sequential intermittent spraying of fenoxycarb residues in the early vegetative stages might be efficient in controlling this pest \[[@CR72]\]. Usual germination inhibitors such as diquat, isoxaben or 2,4-D could be applied in the seed or untreated seed, these compounds have potential to be used in laboratory conditions to grow *A. absinthium* for genetic evaluation \[[@CR73]\]. The effect

Citizenship Now is a horror roleplaying game where you're a newborn on a quest to restore the Constitution! It's up to you to find out what happened during the massive civil unrest and systemic corruption, since everyone is blind but you! Become a player character on a quest to uncover what really happened during the turmoil. Take part in tense conversations where you'll need to make hard choices, and explore the vast underground city of Caliph City and the decrepit Temple of Gloom. Citizenship Now's twist on the traditional roleplaying genre is given by its unique horror setting. In a world where everybody is blind but you, you have no way of being sure what's real or not! No matter who you talk to, you can be sure that they're not telling the truth, and that there's something more sinister going on under the surface. You'll need to make hard decisions: are you willing to lie to a blind character,

or should you let your conscience take over and let them live with the consequences? Will you betray your own people, or will you choose to fight for them? In a world where nobody can see, anything is possible... Key Features: One of the most beloved and unique games of all time, with over 100,000 copies sold! Beautifully illustrated by the legendary Famedin, with characters that look like they've stepped out of a Tim Burton movie! A dark, surreal story, with characters that are both sympathetic and outright terrifying! A throwback to the days of old school roleplaying, with RPGs that are still the best and most engrossing today! A town full of mystery and excitement, where a grand conspiracy is slowly being unearthed. A deep experience that grants you powers over other characters and the environment! Player character with three different personality traits, that will allow the player to develop their own character! A general overhaul of the rules system, allowing for even more replay value! Up to 4 player online cooperative gameplay! No random dice rolls, but instead lots of permadeath! Translations for French, Spanish, Italian and Japanese! The English version will also be updated to include support for SSDs. Co-Operative Story
