1. The World is Large and the Battle Content is Heavy With a total of 20 areas, we could say that there was not so many areas in this game. You would not be so bored after all in the game. And this is the one of the reason why we like the game so much. 2. The Characters are Various and You Can Customize Them Very Well With the completion of leveling up, the characters will be much stronger than before. You will be able to use an attack with a hundred percent accuracy even on the bigger monsters. You will be able to use skills more easily now and become a powerful character. 3. The Detail and The Storyline is Great The characters are unique, the story is really interesting, and the action is really great and it is really fun to play at the same time. We really enjoy when they are in battle and fight against the monsters. The story is surprisingly well-written. It is a multilayered narrative that links with each other in the worlds. 4. The Battle Content is Great There are so many different types of enemies, even creatures. They have different attributes and level-ups. When you succeed in defeating them, then the experience and the items you obtained would be effective in the battle later on. To be continued? 5. The Big Dungeon is an Exciting Game The games are the dungeons where you fight with the monsters with the various environments and a lot of contents, etc. However, at first the fights against the enemies would be not so thrilling, but we would get more and more thrilling the more we play. 6. The World is So Varied There are so many different kind of landscapes. You would not be so bored with a small area at all. 7. The Game is Fun and the Graphics are Amazing!
