■ Overview In the ELDEN RING Game, the player controls a Tarnished who seeks to rise in the ranks of a guild to become an Elden Lord. As the leader of a guild that has survived the many challenges of its journey through the Lands Between, you raise a guild, collect various rewards, and fight against the various monsters that hide in the landscape. A New Fantasy Action RPG We have redesigned the game system to capture the fun found in RPGs and the pulse-racing action of action RPGs while simultaneously integrating the rich storytelling of fantasy novels. As a result, the class system, the main quest, and the battle system have been simplified and the game has been streamlined to be accessible to both new players and old. An interesting fact about the game is that the main character is not an elf. Elfs are the stronger race with high natural defenses and greater accuracy, and they are special in the world of AD&D. Instead, the character's race is a race not found in the world of AD&D. The race is set outside of the world of AD&D, meaning that they are as strong as elves and as strong as dwarves and as strong as humans. They are a non-aligned race with a similar appearance to humans. This race is currently only known as the Elden Race. This RPG that is welcoming to beginners and those who have loved RPGs before, while preserving the feel of an established fantasy RPG, is for both new and experienced players. ■ Characters Character Name: You are a Tarnished.
