correctly add objectDataSource

property into List I need to get a list of data via method on asp.net page. I have class named Roles which I want to fill with data and I got error that that does not exist. There is a class (I write "Expert" here) which inherits from User, but I do not know how to add it to ModelState.AddModelError correctly because it is not a data, and I have List of Data. My class is here

```
public class Roles : User { public Roles() { Designations = new List(); } } Here are my method: [HttpGet] public JsonResult GetAllRoles() { var roles = _userManager.GetRoles(); var roleList = new List(); foreach (var role in roles) { e79caf774b
```
