klanghelm.mjuc.variable-tube.comp.v1.1.win.x86. [x.robel] X-Translating-V1.1 (Wine 1.0) [x.robel] I post what I got from the sources, to which the author kindly gave a link. He didn't have the patience to finish development, so I decided to finish it for him. I am not ashamed of this work, and I sincerely hope that you will like it. If you have any comments, I'll be glad to hear them. Unlike the original program, several things have been changed in this version. In particular, the delete/privatization function has been removed.
