PDF | The Malaysian government has taken note of the growing information that a paradigm shift in education is of great importance to teachers. The Malaysian government has taken note of the growing information that a paradigm shift in education is of great importance to teachers. In this regard, in Malaysia, the National Plan "Improving the qualifications of teaching staff" has been developed, which must be approved at a meeting of the Cabinet of Ministers. According to the plan, over the next 10 years, Malaysia will introduce the program "Professional Development of Teachers" (PQMC).
